

Custom Crystal Report for Syspro:

SHORTAGE REPORT for Manufacturers

Operations Resource Group (ORG) is offering a pre-developed Crystal Report to better manage shortages. The **Shortage Report** is designed to work with the SYSPRO ERP system, pulling unfulfilled job allocations and matching them with replenishment Purchase Orders or Wip Job Orders.

The report shows shortages for buy (purchased) parts and where they are needed in Jobs (WIP). This is useful for shortage and production meetings, for expediting PO's placed, and identifying critical shortages without PO's placed yet, and gives receiving a good document to immediately route received shortages to jobs. A sample of the report is attached.

Price: \$525 plus sales tax

This price includes the rights to use and modify the report for your company only (resale of report or transfer to another company is not allowed) plus 2 hours of remote support time.

Support time is used to point the report to your data directories, explain the report, and any installation help needed. Additional time will be billed at \$125.00/hour, and on-site support will have travel and mileage time charged.

Technical information:

Report available in Crystal 8.5 or Crystal 11, delivered over the internet or by CD. This report works for both MS-SQL and C-ISAM database sites. This report works for Syspro Version 6.0, both Issue 009 and Issue 10 releases. The report includes 2 sub-reports that pull data to be presented on the final **Shortage Report**. You are welcome to change the report in any manner you wish. No guarantee is provided against the need to rewrite the report if Syspro changes their data structure in the future. No upgrades will be done to the report, but if you lose the copy, a new one will be provided at no charge.

- Syspro 6.0, Issue 10 uses Crystal 11 for the Syspro Reporting Services

To order contact Rochelle Ullmann at 408-733-5243 rochelle@orghelp.com
She will gather all the information and coordinate the installation schedule.
Rochelle is available M-W-F mornings.

Shortage Report by Stockcode
